**ART THERAPY IN EDUCATION AND PRACTICE**

**October 19-21, 2011**

## **SCIENTIFIC COMMITTEE**

Dear Sir or Madam,

Art therapies in education and practice are complementary elements of Art therapy educational system and determine its sustainable development, as well as increase educational standards and requirements for development of Art therapy in Poland and abroad.

The meeting of theoretical and practical specialists in particular areas of Art therapy will certainly bear fruit in form of sharing experiences, discussing the directions for development of Art therapy in Poland and will contribute to better organization of educational systems, creating uniform professional standards and popularization of Art therapy not only in scientific environment.

On behalf of the organizers of the International Art Therapy Conference we invite for participation first of all pedagogues, psychologists, therapists, medical doctors, nurses, physiotherapists, sociologists, social workers, representatives of governmental and non-governmental organizations as well as all individuals interested in Art therapy. In the following years we are planning to establish this occasion as a cyclical event.

During the conference – next to presentations, lectures, research reports and exhibitions – numerous Art therapy workshops are planned.

We would like to invite all individuals interested in participating at the conference and wish all the lectures successful presentations and all participants unforgettable experiences.

## **ORGANISATIONAL COMMITTEE**

Romana Pawlińska-Chmara, Ph. D. – e-mail: [roma@uni.opole.pl](mailto:roma@uni.opole.pl), tel. 604 476 069
